“Protect Your Investment”

3 Step - Fuel System Cleaner & Induction Service Kit **With Throttle Body**

“For Professional Use ONLY”

True Brand® 3-Step Fuel System & Induction Service Kit will help reduce emissions, while helping improve performance and fuel economy. True Brand® 3-Step Fuel System & Induction Service Kit uses a **2 stage** cleaning process to clean while it protects.

Helps Eliminate:

Rough Idling Pinging
Misfiring Knocking
Power Loss Engine Run On

For **BEST RESULTS** perform service every 15,000 miles or once a year!

Truth - Application / Directions

- Safe for all gasoline engines.
- Oxygen sensor safe
- Induction Cleaner (NOT for rotary or diesel engines.)

Truth - Features / Benefits

Process # 1

Fuel System Cleaner

Designed to clean the entire FUEL SYSTEM using detergents combined with surfactants. This concentrated formula removes water from the fuel system and dissolves carbon deposits, gums, and varnishes. This formula lubricates injectors, valves, upper cylinders, and rings while cleaning; it improves combustion and reduces exhaust emissions.

Process # 2

Throttle Body Cleaner

True Brand® Throttle Body will clean the throttle valve, throttle body, idle air control valves, PCV valves and other parts of the air induction system that have deposit accumulation. The product will not harm oxygen sensors or catalytic converters.

Process # 3

Induction Cleaner

True Brand® concentrated formula is designed to clean using a 2 stage process helping Extend Engine Life. The 2nd stage residual detergents are designed to soften the hard carbon deposits for a thorough lasting cleaning. 1. Light volatiles help remove gums and varnish from the induction system. 2. Thermally stable ingredients remain to remove carbon deposits.

Part # T2238

8 kits per case/ 8 oz
