“Protect Your Investment”

3 Step - Fuel System Cleaner & Induction Service Kit
With Oil Conditioner

“For Professional Use ONLY”

True Brand® 3-Step Fuel System & Induction Service Kit with **Oil Conditioner** will help reduce emissions, while helping improve performance and fuel economy. True Brand® 3-Step Fuel System & Induction Service Kit with **Oil Conditioner** is a unique product that uses a **2 stage** cleaning process to clean while it protects.

Helps Eliminate:

Rough Idling Pinging
Misfiring Knocking
Power Loss Engine Run On

For **BEST RESULTS** perform service every 15,000 miles or once a year!

Truth - Application / Directions

- Safe for all gasoline piston engines.
- Oxygen sensor safe
- Induction Cleaner (NOT for rotary or diesel engines.)

Truth - Features / Benefits

Process # 1

Fuel System Cleaner

Designed to clean the entire FUEL SYSTEM using detergents combined with surfactants. This concentrated formula removes moisture from the fuel system and dissolves carbon deposits, gums, and varnishes. This formula lubricates injectors, valves, upper cylinders, and rings while cleaning; it improves combustion and reduces exhaust emissions.

Process # 2

Oil Conditioner

True Brand® Oil Conditioner is a friction modifier and extreme pressure components that will help protect the engine friction surfaces while cleaning. This is an oil based product that is designed to stay in with the vehicles regular oil for the full oil change interval.

Process # 3

Induction Cleaner

True Brand® concentrated formula is designed to clean using a 2 stage process helping Extend Engine Life. The 2nd stage residual detergents are designed to soften the hard carbon deposits for a thorough lasting cleaning. 1. Light volatiles help remove gums and varnish from the induction system. 2. Thermally stable ingredients remain to remove carbon deposits.
