### UPGRADE Fuel System Cleaner

True Brand® UPGRADE Fuel System Cleaner is a **concentrated** formula designed to clean the entire FUEL SYSTEM. This formula removes water from the fuel system by suspending water and fuel together and removing the water through the combustion process. True Brand UPGRADE Fuel System Cleaner helps prevent rust and corrosion from forming on fuel system components and it dissolves carbon deposits, gums, and varnishes. Engine performance can improve by removing contaminants and deposits in the fuel system.

For **BEST RESULTS** add to fuel tank every 6,000 miles!

#### Truth - Application / Directions

- Pour entire content of bottle into fuel tank.
- Entire content of bottle will treat up to 30 gallons.
- This formula is good for ALL diesels AND gasoline engines.

#### Truth - Features / Benefits

True Brand UPGRADE Fuel System Cleaner helps avoid problems such as rough idle, stalling, hesitation, power loss and restricted fuel flow. Helps Maintain Fuel System Performance by keeping the engine running cleanly to operate more efficiently and helps keep Injector tips clean for better fuel flow.

- Contains no alcohol.
- Helps Prevent **Ethanol** Problems.
- Removes water from fuel system.
- Helps prevent rust & corrosion build up.
- Boosts octane.
- Cleans fuel system deposits.
- Helps Improve Power
- Helps restore fuel economy
- Reduces Emissions
- Will not harm catalytic converter systems or oxygen sensors
