

## Solid Sheet

*“Protect Your Investment”*

### Fuel System Decarbonizer

*“For Professional Use ONLY”*

True Brand® **Fuel System Decarbonizer** is a concentrated formula specifically designed to penetrate and dissolve harmful deposits that are found on intake valves and combustion chambers. It contains powerful solvents and detergents that clean fuel injectors by removing harmful deposits that restrict fuel flow. True Brand® Fuel System Decarbonizer will *restore the spray pattern of the injector*.

It can also be introduced through injectors using any canister type air or pump flush machine. True Brand® Fuel System Decarbonizer is not harmful to fuel system components such as gaskets, hoses, o-rings, rubber components and seals.

For *BEST results* True Brand® Fuel System Decarbonizer is recommended every 15,000 miles or 1 year.

#### Truth - Application / Directions

(S-Hook & Rail Cleaning Procedures)

- Safe for all gasoline piston engines.
- Oxygen sensor safe.
- (NOT for rotary or diesel engines.)
- See **Solid Application Sheet for Directions**.

#### Truth - Features / Benefits

**Exhaust emissions will be lowered and drivability will be improved** when deposits are removed with True Brand® **Fuel System Decarbonizer**. True Brand® **Fuel System Decarbonizer** and can be used in any fuel-injected gasoline engine.

- Chemically cleans injectors on engine, avoiding the need for disassembly.
- Product can be used in various air or pump-operated flush machines.
- Does not have to be mixed with fuel.
- Helps improve drivability.
- Not harmful to catalytic converter or oxygen sensor.
