

## Solid Sheet

*“Protect Your Investment”*

### Diesel 3 Part Oil Conditioner Kit

*“For Professional Use ONLY”*

True Brand® Diesel 3 Part Oil Conditioner Kit is designed to remove oil system deposits, **remove water** from the fuel system, and protect the engine friction surfaces.

- Improved fuel economy
- Reduced emissions
- Smoother operation
- Improved cold-weather starts

#### Truth - Application / Directions

- Safe for all diesel engines.
- 1. Pour entire Diesel Treatment into fuel tank
- 2. Add entire Oil System Bottle to Engine Oil before oil change, start vehicle and have vehicle idle for 5 min.
- 3. **Change oil and filter.**
- 4. Add Oil Conditioner (Leave in with new oil)

#### Truth - Features / Benefits

##### **Process # 1**

##### **Diesel Treatment**

True Brand® Diesel Treatment is a **concentrated** formula designed to clean the entire FUEL SYSTEM. This formula **removes water** from the fuel system by suspending water and fuel together and removing the water through the combustion process, helping improve the combustion process and will help reduce exhaust emissions and smoke.

##### **Process # 2**

##### **Oil System Cleaner**

True Brand® Oil System Cleaner is designed to remove oil system deposits, gums, and varnish. True Brand® helps improve oil circulation while extending engine life by removing abrasive wear metal and dirt particles.

##### **Process # 3**

##### **Oil Conditioner**

True Brand® Oil Conditioner is a friction modifier and extreme pressure components that will help protect the engine friction surfaces while cleaning. This is an oil based product that **is designed to stay in** with the vehicles regular oil for the full oil change interval.
