### Diesel Flush Kit

True Brand® **Diesel Flush Kit** contains cleaning agents and detergents designed to clean diesel fuel injectors and combustion chambers. By removing carbon and gum deposits, fuel flow and spray patterns are improved. This formula **removes water** from the fuel system by suspending water and fuel together and removing the water through the combustion process.

#### Truth - Application / Directions

- Pour entire Diesel Treatment into fuel tank.
- Remove fuel filter and empty its contents.
- Fill filter canister with **Diesel Purge** (True Brand® **Diesel Flush**).
- Reinstall filter.
- Start Engine and let idle or for better results, drive vehicle for 10 to 15 minutes.
- This formula is good for ALL diesel engines.

#### Truth - Features / Benefits

True Brand® Diesel Flush Kit will help provide increased power while lubricating injectors, valves, upper cylinders, and rings while cleaning. True Brand® Diesel Treatment is especially designed to help improve the combustion process and will help reduce exhaust emissions and smoke.

- Cleans fuel injectors.
- Provides rust and corrosion protection for fuel-system components
- Lubricates fuel components while it cleans.
- Compatible with all diesel fuel-system components.
- Helps stop diesel knock.
- Helps reduce exhaust emissions and smoke.
- Helps cure performance problems due to poor spray patterns and deposit buildup.
- Improved fuel economy
- Smoother operation
- Improved cold-weather starts
