Power Steering Kit

True Brand® Power Steering Kit meets O.E.M. requirements. True Brand® Power Steering Kit protects against wear, oxidation, corrosion, foaming, clogging and helps prevent fluid leaks by rejuvenating seals with a leave in protectant.

For **BEST RESULTS** perform a Power Steering Service every 30,000 miles!
All Fluids Break Down. If fluid is not changed at 30,000 miles please follow manufactures recommendations.

Truth - Application / Directions

- Remove old Power Steering Fluid from reservoir.
- Add NEW fluid to “full” do not overfill.
- Run vehicle 5 to 6 minutes while turning steering wheel to the left and to the right (purging system).
- Follow Power Steering Machine directions.
- Drain and Fill. Do not overfill.
- With NEW fluid turn steering wheel to the left and right to bleed air from system. (refill to full) do not over fill.
- Add Power Steering Treatment to the Power Steering reservoir after service is complete (This is a leave in Treatment / Protectant)

Truth - Features / Benefits

True Brand® Power Steering Kit meets O.E.M. requirements for General Motors, Ford, Chrysler, Honda, ATF, ATF 3, most automobiles and light trucks. Regular maintenance will help with conditioning seals and o-rings. True Brand® Power Steering Treatment **helps eliminate squeals** and **chatter** due to "sticking" components and foaming. It conditions and protects seals against drying and shrinkage.

- Reduces cost of repairs.
- Helps remove wear metals, debris, and contaminants.
- Restores steering: secure, quiet, and smooth.
