Synthetic Gear Oil 75w –140

True Brand® Synthetic Gear Oil is a versatile multigrade synthetic, A.P.I. GL-5 rated gear lubricant formulated to SAE 75w140 viscosity.

True Brand® Synthetic Gear Oil is a multi-use product that can be used in place of SAE 75w, SAE 80w-90, SAE 90 or SAE 80w-140 or SAE 140 oils.

For **BEST Results** changed Gear Box Fluid once a year or every 15,000 miles.
All Fluids Break Down. If fluid is not changed every 15,000 miles please follow manufactures recommendations.

Truth - Application / Directions

- Remove old Gear / Differential Fluid
- Add NEW fluid to “full” do not overfill.
- Follow Differential Machine directions.
- Drain and Fill. Do not overfill.

Truth - Features / Benefits

True Brand® Synthetic Gear Oil is a premium extreme pressure lubricant designed for use in conventional differentials, limited slip differentials, and manual transmissions. True Brand® Synthetic Gear Oil is a superior lubrication and protection from wear, pitting and corrosion, and improved performance in extreme temperatures. Regular Maintenance and Gear Box Fluid Exchange will help:

- Reduces cost of repairs
- Reduce gear noise
- Helps Improve Gas Mileage
- Helps reduce wear metals and contaminants
- Reduces operating temperature
