Coolant Treatment

“For Professional Use ONLY”

True Brand® **Cooling System Treatment** is a universal formula that is compatible with all types of coolant-antifreeze. This product contains a unique corrosion and rust inhibitor technology that enhances protection of cooling system metals such as iron, aluminum, copper and solder. It contains antifoaming agents and provides **additional protection** to water pumps.

Truth - Application / Directions

Flush:

- Allow system to cool before removing radiator cap.
- Remove radiator cap.
- Using a fluid Exchange Machine replace old coolant with new.
- Pour True Brand® Cooling System Treatment into the radiator.
- A True Brand® Cooling System **Treatment may be added** to the cooling system at the time of a service or if additional rust and corrosion **protection** is desired.

Truth - Features / Benefits

Treatment

- Increases protection of water pump and reduces potential damage to pump surfaces
- Proven to increase corrosion inhibiting performance of treated coolant
- Strengthens the systems surfaces from corrosion damage for an extended period
- Compatible with all types of coolant
