Coolant Flush

“For Professional Use ONLY”

True Brand® **Coolant Flush** is a powerful, convenient, one-step radiator and cooling-system cleaner. It is formulated to quickly breakdown and **suspend** rust, scale and sediment. This non-acid-base product needs no neutralizer and is compatible with plastic and aluminum.

Helps Remove:

- Sludge
- Rust
- Scale
- Corrosion

Truth - Application / Directions

Flush:

- Allow system to cool before removing radiator cap.
- Remove radiator cap.
- Pour Fast Flush into radiator.
- Replace radiator cap.
- Run engine at operating temperature for ten to fifteen minutes.
- Flush system with a **Fluid Exchange Machine**. Refer to the machine's instructions for additional details and information.

Truth - Features / Benefits

Flush

- Non-acid
- Requires no neutralizer
- Highly effective at removing scale and sediment from system surfaces.
- Can be used on radiator plastic and aluminum components
